

1. EU Regulatory Compliance

- European Union Regulatory Notice

Products bearing the CE marking comply with the following EU Directives:

- Law Voltage Directive 2014/35/EU
- EMC Directive 2014/30/EU
- Ecodesign Directive 2009/125/EC (if applicable)
- Directive 2013/56/EU of the European Parliament and of the Council of 20 November 2013 amending Directive 2006/66/EC of the European Parliament and of the Council on batteries and accumulators and waste batteries and accumulators as regards the placing on the market of portable batteries and accumulators containing cadmium intended for use in cordless power tools, and of button cells with low mercury content, and repealing Commission Decision 2009/603/EC (Text with EEA relevance) European Parliament and Council Directive 94/62/EC of 20 December, 1994 on packaging and packaging waste

CE compliance of this product is valid if powered with the correct CE-marked AC adapter provided by us.

Compliance with these directives implies conformity to applicable harmonized European standards (European Norms) that are listed in the EU Declaration of Conformity issued by us for this product or product family and available (in English only) within the product documentation.

The compliance is indicated by the following conformity markings placed on the product:

CE

Please refer to the regulatory label provided on the product.

- Disposal of Waste Equipment by Users in the European Union

This symbol on the product or on its packaging indicates that this product must not be disposed of with other household waste. Instead, it is your responsibility to dispose of your waste equipment by handing **it** over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that **it** is recycled in a manner that protects human health and the environment. For more information about where

you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or place of purchase.

2. USA and Canada Regulatory Compliance

2.1 USA Regulatory Compliance

- FCC part 15

Part 15 of the Federal Communications Commission (FCC) Rules and Regulations has established Radio Frequency (RF) emission limits to provide an interference-free radio frequency spectrum. Many electronic devices, including computers, generate RF energy incidental to their intended function and are, therefore, covered by these rules. These rules place computers and related peripheral devices into two classes, A and B, depending upon their intended installation. Class A devices are those that may reasonably be expected to be installed in a business or commercial environment. Class B devices are those that may reasonably be expected to be installed in a residential environment (for example, personal computers). The FCC requires devices in both classes to bear a label indicating the interference potential of the device as well as additional operating instructions for the user.

- FCC Rating Label

The FCC rating label on the device shows the classification (A or B) of the equipment. Class B devices have an FCC logo or ID on the label. Class A devices do not have an FCC logo or ID on the label. After you determine the class of the device, refer to the corresponding statement.

- Class A Equipment

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at personal expense.

-

Connections to this device must be made with shielded cables with metallic

RFI/EMI connector hoods in order to maintain compliance with FCC Rules and Regulations.

2.2 Canada Regulatory Compliance

- ICES-003

This Class A digital apparatus complies with Canadian Standard ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

2.3 Safety Information And Warning

- Battery Replacement Notice

CAUTION: Risk of Explosion if Battery is replaced by an Incorrect Type. Dispose of Used Batteries According to the Instructions.

ATTENTION: Risque d'explosion si la batterie est remplacée par un type incorrect.

Mettre au rebus les batteries usagées selon les instructions.

Batteries, battery packs, and accumulators should not be disposed of together with the general household waste. To forward them to recycling or proper disposal, use the public collection system or return them to us, a partner authorized by us, or their agents.

- Battery Use Caution

When battery is used, avoid:

- High or low extreme temperatures during use, storage and transportation;
- Extremely low air pressure, or low air pressure at high altitude.
- Battery replacement.

Use the battery properly. Improper use of the battery such as the following may cause risks of fire, explosion or leakage of flammable liquid or gas.

- Replace battery with an incorrect type;
- Dispose of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery;

Dispose the used battery according to your local regulations or the battery manufacturer's instructions

Persona! safety warnings:

- Chemical Burn Hazard. This product contains a coin cell battery. Do not ingest battery. If the coin cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
- Keep new and used batteries away from children.
- If the battery compartment does not close securely, stop using the product and keep it away from children.
- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Avertissement de l'utilisation de la batterie

Lorsque utiliser la batterie, évitez:

- Températures extrêmement élevées ou basses pendant l'utilisation, le stockage et le transport;
- Pression d'air extrêmement basse, ou pression d'air basse à haute altitude.
- Remplacement de la batterie.

Utilisez la batterie correctement. Mauvaise utilisation de la batterie comme celles mentionnées ici, peut entraîner des risques d'incendie, d'explosion ou de fuite liquide de gaz inflammables.

- Remplacer la batterie par un type incorrect;
- Disposer d'une batterie dans le feu ou un four chaud, écraser mécaniquement ou couper la batterie;

Disposer la batterie utilisée conformément à vos règlements locaux ou aux instructions du fabricant de la batterie

Avertissements de sécurité personnelle:

- Risque de brûlure chimique. Ce produit contient une batterie de cellules. N'ingérer pas la batterie. Si la batterie de cellule est avalée, elle peut causer de graves brûlures internes en seulement 2 heures et peut entraîner la mort.
- Gardez les batteries nouvelles ou utilisées à l'écart des enfants.
- Si le compartiment de la batterie ne se ferme pas en toute sécurité, cessez d'utiliser le produit et gardez-le à l'écart des enfants.
- Si vous pensez que des piles ont pu être avalées ou placées à l'intérieur d'une partie du corps, consultez immédiatement un médecin.

ted Access Area
Equipment is intended for installation in Restricted Access Area.
L'équipement est destiné à être installé dans une zone d'accès restreint.

2.4 Environmental Regulatory Compliance

- **LEDs & Buttons**

CA Prop 65: Per California Proposition 65-the Safe Drinking Water and Taxie Enforcement Act of 1986 and it's modifies adopted by OEHHA, businesses are required to provide a "clear and reasonable" warning before knowingly and intentionally exposing anyone to a listed chemical, unless the business can show that the anticipated exposure level will not pose a significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm. Proposition 65 also prohibits companies that do business within California from knowingly discharging listed chemicals into sources of drinking water.

To the best of our knowledge, ail enclosure materials of our server products do not contain or exceed safe harbor levels of Proposition 65 chemicals. Furthermore, we are not intended to expose customers to any chemical on the Prop 65 list during normal product use. Therefore, the Prop 65 "clear and reasonable" warnings requirements do not apply to our products.

However, for professionals who may open the metal enclosure for repairing, replacing of parts or waste treatment, please note the following warnings and refer to the user manual for disassembly instructions:

WARNING: The product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Notwithstanding the foregoing, issuer shall not be responsible under this Declaration of non-compliance for any components, systems, materials, and/or parts provided by customer assigned or appointed vendors, nor shall Issuer be held responsible for any components, systems, materials, and/or parts under either a consignment or a buy-sell arrangement.

- **Perchlorate Contamination Prevention Act (California)**

The State of California requires that a warning be included for products containing a device using Lithium Perchlorate. We understand the CA Lithium Perchlorate requirement that a printed warning must be included with all products containing a Lithium battery, either as an insert, in existing product literature, or as part of the shipping memo wording.

Here is the Warning text:

Perchlorate Material - special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate. This notice is required by California Code of Regulations, Title 22, Division 4.5, Chapter 33: Best Management Practices for Perchlorate Materials. This product/part includes a battery that contains Perchlorate material.

3. Korea Regulatory Compliance

이 기기는 업무용 (A 급) 전자파적합기기로서판매자 또는 사용자는 이 점을
주의하시기바라며,가정외의 지역에서 사용하는 것을목적으로 합니다 .

4. Japan Regulatory Compliance

この装置は、クラスA情報技術装置です。この装置を家庭環境で使用すると電波妨害を引き起こすことがあります。この場合には使用者が適切な対策を講ずるよう要求されることがあります。

5. Australia and New Zealand Regulatory Compliance

Class A Notice

CAUTION: This is a Class A product of Electromagnetic Interference (EMI) standards. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

6. Laser Safety Standard Compliance

The equipment maybe include optical module ,which is a Class 1 laser product, and complies with International Laser Safety Standard IEC 60825-1.

7. Other warnings

The following warnings apply if the product contains exposed pluggable fans

- "WARNING: Hazardous Moving Parts. Keep body parts out of the motion path."/"AVERTISSEMENT: Parties mobiles dangereuses. Se tenir à l'écart de la zone de mouvement des parties mobiles."
- "Equipment is intended for installation in Restricted Access Area" /"Les matériels sont destinés à être installés dans des EMPLACEMENTS À ACCÈS RESTREINT"
