# TRANQUILIT ALL TERRAIN

# Mini Rugged - Intel 10th Gen Mobile Dual LAN -IP51

Our Mini Rugged range offers an array of processor options, IP rating levels, and both modern and legacy I/O

The Mini Rugged is our entry level computer, which has great flexibility including legacy IO such as RS232. Other features include HDMI, USB3.0 and powered by up to an i5. The Mini Rugged is a versatile product ensuring reliability with a wide range of I/O options.

### **Key Features**

→ Processor: i3 up to i5

→ Operating Range: -20C to 50C

 $\rightarrow$  TPM 2.0

→ Dual 1Gbe LAN

→ Maintenance free

## Key benefits of FANLESS and RUGGED computers

No fans obviously means no noise, but it's not the only benefit!

No fans allow an important decrease in power consumption, making our products more sustainable!

A fanless computer eliminates the risk to draw in dust and dirt from the environment, the cause of potential failures and costly downtime.

The absence of moving parts enable our products to resist shocks and vibrations, for an increased reliability.

They are built to withstand harsh and constrained working conditions.

High Ingress Protection (IP) rating, indication the protection level of products against both solid and liquids in electrical enclosures.

The in-house designed and milled aluminium chassis is optimized for efficient passive cooling and durability. Its conception proved their reliability in extended operating temperatures.

The aluminium used for the chassis production is repurposed and recycled, and the production waste is recycled too!
